

Route – Mont Peyrassou

Length – 9 km (3 hours) – yellow markers

Start/finish point – Clairière de la Condamine

How to get there – Doms road, after the housing estate on your left, take the first lane on the left which begins by a clearing.

1. Take the path that goes up to your right.
2. At the junction, take the left-hand path. Follow this path for quite a while until you reach a plot for harnessing water. Pass the stile and cross the bit of land (go straight across). Having arrived in a wood, walk across it. Then turn into a lane lined by oak and beech trees (you might have to go over a barrier). Having arrived at the village of Mont, stop and admire the view.
3. Having arrived on the road, head to the right and then turn left before the houses. Follow this path for at least 1 km. At the next crossroads take the path on the left which comes out on the road. Turn right and walk along the road for about 300 m.
4. Take the first path on your left and follow it into the woods. At the intersection, take the path that goes down to the left. Again turn left before an open field (the path looks like it goes straight on) then to the right below it. Continue straight on passing a path on your right. At the next crossroads take the path on your right and walk down towards Peyrassou village. Having arrived on the road, turn left, walk through the village and continue.
5. When you reach a larger road, turn left and walk up to the next path on your right.
6. Turn right and then head into the woods. At the next two crossroads continue straight ahead. Having arrived at the plot of land for harnessing water that you crossed previously, follow the same itinerary in reverse to return to your starting point.
